

Hall Mills - 105.82 - correspondence - 1937.4.8
say you are not coming ✓
will understand. - FHTP

It is ten P.M. now & I have
just been urging Willie to take
a glass of milk, but he will
not.

I hate to think
of his lying there alone.

suffering, for Lgs. - he said his
head ached - & he must be
in need of food. Nothing since
yesterday noon, except a little
milk last evening.

I know he would feel better
in body & mind if he would

Willie the sort of thing the
man might do, in order to try
to make him realize the seriousness
of it all. The only result
so far, is that his feeling are
but so that I - well never
mind that!

If you come, you know there is
a chance that Willie would
not see you. If come I have
no influence with him & I
am not sure that for many
one else has.

If you call up a Doctor &

only let me do something to care for
him -

I think Mr. Watson is the best one to
help him & I will see him, or when you
will see a talk with him -

As ever cordially

Frank Hall Hall.

Saturday - P.M.

I sent for the Dr. today & will
let him come in & has promised to
take some with a food -

He is angry at me for sending for Lawrence
but I just had to -

I hope things will be better
tomorrow - J.H.H.
